### PSPBEEB: BBC Micro Emulator for PSP v1.0.7

Hi All,

Here is a new version of PSPBEEB the BBC Micro Emulator for PSP.

For those who haven't seen previous versions, BeebEm is a famous emulator of the BBC Micro computer series running on both windows and unix. (see beebem)

\*\* Many thanks to Pou-chan for the multiple keyboard mapping \*\*

What's new in version 1.0.7 :

- Multiple keyboard mapping feature developed by Pou-chan :  
You can now toggle between 3 different keyboard mapping (using for example LTrigger and RTrigger keys)
- Bug fix in the keyboard skin chooser (that made the emu crashed)
- Add new keyboard files from Bah and Pou-chan

How to use it ? Everything is in the README.txt file.

Sources are included, and this package is under "Beebem" license, read COPYING.txt file for more information about it.

pspbbeb-v1.0.7.zip

Enjoy,

Zx.

If you want to discuss on this emulator, you can do it here :  
[zx81's forum on dcemu network](#)

Hi,

Really keen to try this out on my PSP (fw 2.81) I have copied the pspbbeb folder from the fw2.x directory to the PSP/GAME directory on my PSP, but when I select the Game -> Memory Stick -> PSP Beeb item from the menu I get an "This game can not be started. The data is corrupted" error. Am I missing something? btw - Keep up the good work!

It doesn't work with FW greater than 2.6 ...

This is great although not quite full speed yet. The BBC emulator for the Gameboy Advance seems faster with better sound. Perhaps you could get some speed tips by looking at the source at [http://www.geocities.com/quirky\\_2k1/emulation/index.html](http://www.geocities.com/quirky_2k1/emulation/index.html)

A new versions of your BBC emulator would be great.

Keep up the good work!

Hey ZX81!

Great work on the pspbeeb! but im getting some really problems with sound! it sounds all cut up and slow and time stretched!

Its a shame because i like to listen to music disks for the beeb
