Im sorry to bother you,I've been trying and trying and trying to get into the Qj.net forums for quit a while now to no avail! Maybe this is the only way to get there,Hopefully. When I try to register I cant seem to see the spam-prevention for anything so it doesnt allow me to register same for trying to contact the admin. If you could relay I would be grateful and Id probably donate for the site also. Please If you could do this id be so in your debt! the main reason for me wanting to be in the forums is that I had recently installed "myradio" on my psp and it works fine if all you want to do is look at the music just cant hear it. thanks again my email address is: ilovetamatha@yahoo.com

Hi dude,

You may try using another web browser (such as firefox) or also remove all cookies, and/or use a proxy.
