PSPWrite: A Text Editor for PSP v1.0.1 *UPDATE*

Hi All,

I'm pleased to announce the first release of PSPWrite a simple text editor for the PSP.
This editor should be easier to use than Notepad (part of PSP-PDA project).

It permits to edit even huge text file, in both dos and unix mode, using iso8859-1 (8bits) characters encoding. All iso8859-1 characters are present in the "Danzeff like" virtual keyboard.

The IR keyboard support is based on the work of Harald Fielker (author of the PSP IR Keyboard Library) with a new patch from Craig to support Sprint PCS IR keyboard.

It has been developed on linux for Firmware 1.5 and 3.40-OE, and for the IR keyboard part it has been tested using a Targus Universal IR Wireless keyboard.

How to use it ? Everything is in the README.txt file.

Sources are included, and this package is under the GNU public license,
read COPYING.txt file for more information about it.

pspwrite-v1.0.1-fw3x.zip

pspwrite-v1.0.1-fw15.zip

pspwrite-v1.0.1-src.zip

UPDATE : a little bug has been found and fix (it could freeze the psp)

Enjoy,

Zx.

If you want to discuss on this emulator, you can do it there :
zx81's forum on dcemu network or zx81's forum on qj.net

Vive la France!
Sheep on Oct 14 2007, 12:10

Thanks

It's a first release, with bugs and missing features. But i'm working on it.

Zx

Okay, let me try again...

"Bon travail!"

That make any sense now? I translated word by word this time. XD

Anyhow, thanks Zx on another great release!

Ocean19 on Oct 14 2007, 16:28

Thanks dude
