PSPMSX: MSX Emulator for PSP v1.2.4

Hi All,

Here is a new version of PSPMSX the MSX series Emulator for PSP.

For those who haven't seen previous versions, fMSX is a famous emulator of the MSX, MSX2, and MSX2+ 8bit home computers.
It runs MSX/MSX2/MSX2+ software on many different platforms including Windows and Unix.
See http://fms.komkon.org/fMSX/ for further informations.
It has been first written by Marat Fayzullin, and later Vincent van Dam ported it on SDL.

What's new in version 1.2.4 :

- Add missing keys such as HOME, GRAPH, STOP
  (Thanks to symBioT for the bug report)
- Auto joystick fire mode, press RTrigger+X to switch it on/off
  (useful for games such as 1942)
- Add several new hotkeys :
  . settings such as fps, render mode, auto fire speed
    can now be directly modified inside the emulator
    (no need to enter in the settings menu)
  . quick save / quick load current state
    (no need to enter in the main menu)
- Bug fix in the low battery watchdog
- Analog pad can be used in the rom file requester
- RTrigger/LTrigger keys can be used in the keyboard
  settings menu to navigate between Normal, LTrigger
  and RTrigger compose mapping.

How to use it ? Everything is in the README.txt file.

pspmsx-v1.2.4-fw3x.zip

pspmsx-v1.2.4-fw15.zip

pspmsx-v1.2.4-src.zip

This should be the last release, (before the next one as always)

  Enjoy,   Zx.

If you want to discuss on this emulator, you can do it there :
zx81's forum on dcemu network or zx81's forum on qj.net

Hi,

Have a look on dcemu.co.uk or pspupdates.qj.net, there are tonns of tutorials to install a custom firmware using a pandora battery,

Hi!!!
The CODE/KANA key is not suported?
Great MSX emulator!!!
