AFKIM: Instant Messenger for PSP v3.3.2 (CRITICAL)

Hi all,

Here is a new release of AFKIM (Away From the Keyboard Instant Messenger), the instant messaging application for PSP written by Danzel !
(see http://localhost.geek.nz/)

This version fix a critical issue (thanks to LegolasFett for reporting). Previous versions of Afkim don't work anymore due to several changes in the authentication messages sent by the bitlbee server.

Have a look to the file README-irkbd.txt for mapping informations etc ...

The IR keyboard part has been tested using a Targus Universal IR Wireless keyboard.

afkim-v3.3.2-fw3x.zip

afkim-v3.3.2-src.zip

afkim-v3.3.2-fw15.zip

 Enjoy,

    Zx.

If you want to discuss on this emulator, you can do it there :
zx81's forum on dcemu network or zx81's forum on qj.net

Thanks for this! I am glad u are working on it!

I am stuck on "Resolving"...

I am assuming that is where the bug is...

Thanks again for your work on this!

   zx-81 on Mar 21 2008, 20:03

can i connect as invisible ? can i see offline messages ? COULD YOU POSSIBLY MAKE VOICE WORK ? man.. i'd give u money if u'd do the last one
   zenderady on Mar 22 2008, 15:26

If you want voice, then i suggest you to use the Sony/skype stuff . Bitlbee doesn't handle sound, and since afkim is a simple bitlbee client, it can't support what server doesn't support ...
