PSPMSX: MSX Emulator for PSP v1.3.0

Hi All,

Who said i gave up ? Here is a new (last?) version of PSPMSX the MSX series Emulator for PSP.

For those who haven't seen previous versions, fMSX is a famous emulator of the MSX, MSX2, and MSX2+ 8bit home computers.

It runs MSX/MSX2/MSX2+ software on many different platforms including Windows and Unix.

See <http://fms.komkon.org/fMSX/> for further informations.

It has been first written by Marat Fayzullin, and later Vincent van Dam ported it on SDL.

**** UPDATE ****

What's new in version 1.3.1 :

- The virtual keyboard is now usable in the file requester menu to choose the first letter of the game you search !

What's new in version 1.3.0 :

- Add gzipped disk file support to reduce disk file size from 700k to 50k !
(you may gzip original disk file using 7-zip available at www.7-zip.org)
- Add MSX eboot's music (thanks to Konami)
- A thumbnail image is now displayed in the file requester while selecting any file with the same name of a previously saved game (rom, disk, keyboard, settings).
It might be very helpful to recognize that game later if you have thousand different games in your disk and rom folders !
- In the emulator menu you can go directly to keyboard and settings menus using the L-Trigger key.
- Fix IR keyboard issue with fw >= 3.80 for FAT PSP
- Fix random black screen issue

How to use it ? Everything is in the README.txt file.

pspmsx-v1.3.1-fw3x.zip

pspmsx-v1.3.1-fw15.zip

pspmsx-v1.3.1-src.zip

This should be the last release, (before the next one as always)

Enjoy, Zx.

If you want to discuss on this emulator, you can do it there :

Hi!
Any new version of the MSX emulator for GP2X? That would be great!!!

Thank you!
MsxKun on Jun 4 2008, 09:48

Hi,
It's on the way ...

zx-81 on Jun 4 2008, 23:36

Great !!! I think I'll finally buy a PSP just for this one... I used to play MSX on my GP32 but since I sold it I have to find a new way and it looks like a very good one !
RandyMarsh on Jun 14 2008, 02:18

Thanks
Zx

I'm getting a really weird error, i have been playing metal gear for some time now, and suddenly pspmsx start pressing buttons at random, going back and forth in the menu, resetting, writing weird stuff in the msx boot etc... i tried deleting msx and reinstalling, and i have tried formatting flash1.
using m33 4.01.

really weird.
gazaki on Oct 3 2008, 01:24

It's may be an issue with the battery watchdog stuff i've put in pspmsx ...
I plan to release a new version very soon, i will try to fix that issue,

Zx
zx-81 on Oct 3 2008, 09:38

Cool, can't wait.
gazaki on Oct 3 2008, 12:17

That's a very good news ! MSX forever ! 8-]
Acouphene on Oct 3 2008, 14:37

Where can I find the Metal Gear/Metal Gear 2:Solid Snake ROMS, if any?
