Dingux-TI92: A TI-92 Calculator emulator v1.1.0 for Dingux

Hi all,

XTiger is an unix emulator (under X Window) of a TI-92 calculator (Texas instruments).
It was originally written by Jonas Minnberg and was closed source.
Jonas Minnberg has not worked on XTiger for quite a while and he gave
Misha Nasledov the code and permission to GPL it.

Here is a port on Dingoo / Dingux of the version i've previously ported to GP2X-Wiz

The package is under GPL Copyright and sources are included.

Many TI92 stuff can be found on the following urls :

http://www.ticalc.org, and on the texas instruments web site http://education.ti.com

Here is a PDF version of the manual : http://www.smendes.com/ti89.pdf

Here is a full working binary version :
dingux-ti92-v1.1.0-bin.zip

Here is the source code :
dingux-ti92-v1.1.0-src.zip

Enjoy,

Zx.

If you want to discuss on this homebrew, you can do it here :
