Dingux-GO: GO Game for Dingux v1.1.0

Hi All,

GNU-Go is an ASCII command line GO game running on MacOS X,
Windows and many Unix systems. (see GNU Go web site)

Dingux-GO is a port of GNU-Go 3.6 on Dingoo/Dingux and i've added a Graphical User interface.

Special thanks to Pharyon for the nice picture.

How to use it ? Everything is in the README.txt file.

Sources are included, and this package is under the GNU public license,
read COPYING.txt file for more information about it.

For those who wonders how to play go ? here is a good site !

Here is a full working binary version :

Here is the source code :

 Enjoy,

    Zx.
