Pandora-MSX: MSX Emulator for Pandora v1.1.0

Hi All,

fMSX is a famous emulator of the MSX, MSX2, and MSX2+ 8bit home computers. It runs MSX/MSX2/MSX2+ software on many different platforms including Windows and Unix. See http://fms.komkon.org/fMSX/ for further informations.

It has been first written by Marat Fayzullin, and later Vincent van Dam ported it on SDL.

Here is a port on Pandora of the version i've previously ported to GP2X-Wiz and other portable consoles.

How to use it? Everything is in the README.txt file.

Here is a full working binary version : pandora-msx-v1.1.0-bin.zip

And the source code: pandora-msx-v1.1.0-src.zip

Looking for cheats? here it is: http://romdb.vampier.net/cheats/

Enjoy,

Zx.

If you want to discuss on this homebrew, you can do it here : My forum on dcemu network or http://www.gp32x.com/.
