### Caanoo Ri-Li : Ri-Li game v2.0.1 for Caanoo

Hi All,

Ri-li is an arcade game, let you drive a wooden train in many levels where you should collect all rail cars scattered around the track. See <http://ri-li.sourceforge.net/> for more details.

It has been written by Dominique Roux-Serret and muscis are from Maf464.

I've modified version v2.0.1 to fit caanoo screen size, added gzip support for data files, re-encoded unsupported audio files, fix crash issues etc ...

Sources are included, and this package is under the GNU public license, read doc files for more information about it.

Here is a full working binary version :

Here is the source code :

Enjoy,

Zx.
