Android Ri-Li : Ri-Li game v2.0.1 for JXD

Hi All,

Ri-li is an arcade game, let you drive a wooden train in many levels where you should collect all rail cars scattered around the track. See <http://ri-li.sourceforge.net/> for more details.

It has been written by Dominique Roux-Serret and muscis are from Maf464.

I've modified the Pandora version v2.0.1 and port it to android using the amazing framework of Pelya, a big 'merci' for his awesome work !

See his site for more details.

Sources are included, and this package is under the GNU public license, read doc files for more information about it.

Here is a full working binary version :

Here is the source code :

Enjoy,

Zx.
