## **Game & Watch simulator for JXD / G18**

Hi all,

Here is a patched version of the Game & Watch emulator by Hitnrun (gp2x and pandora version).  
This version fits the JXD and G18 screen size (this is main change compared to original hitnrun version).

APK binary :  
[android-gameandwatch-apk.zip](#)

Enjoy,

Zx.

Hi Dazman,

Vectrex emulator has been already ported on psp. Regarding Game & Watch i don't know. The PSP scene is quiet dead now, even if it is a very good portable console.

Happy new year, Zx

Happy new year to yourself also.

Great, I have download Vectrex from your site to give it a go.

Please don't leave all us psp folks in the dark, I would love to replay some of my childhood lcd's on my psp, I still have a Red LCD Mario with flip up screen so light shines in the top and it still works.

Please reconsider porting it.
