Here is a linux SDK for the pandora console

Hi all,

Some of you asked me for a tar ball of the SDK i use for my pandora developments & ports.
So here is my SDK for fedora core (but it should work for other linux distro) :

pnddev-20100802.tar.bz2

You may add the following lines in your bashrc :
export OPENPND=/usr/local/pnddev
export PNDDEV=$OPENPND
export PATH=${PATH}:${OPENPND}/bin

Hope that helps,

Zx

If you want to discuss on this package you can do it here :
My forum on dcemu network or http://www.gp32x.com/.
