### **Android-Vectrex : Vectrex Emulator for Android JXD consoles**

Hi All,

VecX emulates the Vectrex game console on systems such as Linux and Windows. It has been written by Valavan Manohararajah.

Here is a new version for Android console (JXD and Yinlips).

Apk :  
android-vectrex-apk.zip

Source code :  
android-vectrex-src.zip

Enjoy,

Zx.

### **Game & Watch simulator for JXD / G18**

Hi all,

Here is a patched version of the Game & Watch emulator by Hitnrun (gp2x and pandora version).  
This version fits the JXD and G18 screen size (this is main change compared to original hitnrun version).

APK binary :  
android-gameandwatch-apk.zip

Enjoy,

Zx.

### **JXD-a2600 : Atari 2600 emulator for JXD and G18**

Hi All,

Here is a new version of Stella / atari 2600 emulator for Android consoles JXD S5110, JXD S601 and Yinlips G18.

Here is the Changelog :

- Touch screen support in most of all menus
- JXD + G18 support
- Speed limiter accuracy improvement
- Frame skip used now a 1/50 sec step (more accurate)
- Fix Sound issues (due to bad SDL implementation on Android)

I have modified the Pandora version and port it to android using the amazing framework of Pelya, a big 'merci' for his awesome work. See his site for more details.

Here is a binary version :  
android-a2600-v1.1.0-apk.zip

The source code :  
android-a2600-v1.1.0-src.zip

Enjoy,

Zx.

### **JXD-Coleco: Colecovision emulator for JXD and G18**

Hi all,

Here is a new version for JXD S5110, JXD S601 and Yinlips G18.

- Touch screen support in most of all menus
- JXD + G18 support
- Speed limiter accuracy improvement
- Frame skip used now a 1/50 sec step (more accurate)
- Fix Sound issues (due to bad SDL implementation on Android)

Binary version :  
android-coleco-v1.1.2-apk.zip

Enjoy,

Zx.

### **JXD-CAP32: Amstrad CPC emulator for JXD and G18**

Hi All,

Here is a new version for JXD S5110 & JXD S601, and now G18 android consoles.  
The touchscreen is supported, but not everywhere.

How to use it ? Everything is in the README file.

This package is under GPL Copyright, read COPYING file for more information about it.

Changelog :

- Add more render modes + delta Y (better to play games such as Arkanoid)
- Touch screen support in most of all menus
- JXD + G18 support
- Speed limiter accuracy improvement
- Frame skip used now a 1/50 sec step (more accurate)
- Fix Sound issues (due to bad SDL implementation on Android)
- Fix several other bugs (snapshot images display etc ..)

Apk :  
android-cap32-v1.1.1-apk.zip

Source code :  
android-cap32-v1.1.1-src.zip

Enjoy,

Zx

### **JXD-TWorld: Tile World for JXD / Android**

Hi All,

Tile World is an emulation of the game "Chip's Challenge". "Chip's Challenge" was originally written for the Atari Lynx by Chuck Sommerville, and was later ported to MS Windows by Microsoft (among other ports).

See here for details.

Here is a port on JXD / Android of version 1.3.

APK :  
android-tworld-apk.zip

Source code :  
android-tworld-src.zip

Enjoy,

Zx.

### **Android Mancala: Mancala game for JXD / Android**

Hi All,

Mancala is a board game family, originated in East Africa. The word "Mancala" came from arabic word "naqalah" that means literally "To move".

Android Mancala is the "Awari" variant, and even if the rule of this game is simple, the complexity can be compared to chess Game.

The AI is based on the source code of H. Huseby & G.T. Lines, for their implementation of the classical Minimax algorithm.

The touch screen is supported, and there is a two players mode.

How to use it ? Everything is in the README.txt file.

Sources are included, and this package is under the GNU public license, read COPYING.txt file for more information about it.

How to play ? Here is the rules available from awari.cs.vu.nl :

Awari is played on a board where each player owns 6 pits. In the initial position, all pits are filled with four stones, thus the initial position has 48 stones.

The player to move chooses one of its own, nonempty pits and removes all stones from the pit. The player then sows the stones, counterclockwise, over the remaining pits.

If the last stone is sown into an enemy pit that contains 2 or 3 stones after sowing, the stones are captured.

## Blog Export: ZX-81's web site, <http://zx81.zx81.free.fr/serendipity/>

In this case, if the second last pit is also an enemy pit that contains 2 or 3 stones, they are captured as well, and this process is repeated clockwise, until the own pit, or an enemy pit containing less than 2 or more than 3 stones is reached.

The player who captures most stones, wins the game. The game ends when a player cannot move, however, to avoid such a situation early in the game, it is not allowed to do a move that leaves the opponent without a countermove, unless all moves eradicate the opponent.

APK :  
android-mancala-apk.zip

Source code :  
android-mancala-src.zip

Enjoy,

Zx.

## **Android Chess: Chess game for JXD / Android**

Hi all,

Android Chess uses the GNU Chess version 5.07 for the Artificial Intelligence.

How to use it ? Everything is in the README.txt file.

Sources are included, and this package is under the GNU public license, read COPYING.txt file for more information about it.

APK :  
android-gnuchess-apk.zip

Source code :  
android-gnuchess-src.zip

Enjoy,

Zx.

## **JXD-CAP32: Amstrad CPC emulator for JXD**

Hi All,

Caprice32 is one of the best emulator of the Amstrad CPC home computer series running on Windows and Unix, written by Ulrich Doewich. This emulator faithfully imitates the CPC464, CPC664, and CPC6128 models (see caprice32 project)

Here is a first version for both JXD S5110 & JXD S601 android console.  
The touchscreen is not supported so you have to use only console buttons (like PSP or Caanoo version).

I have modified the Pandora version and port it to android using the amazing framework of Pelya, a big 'merci' for his awesome work. See his site for more details.

How to use it ? Everything is in the README file.

This package is under GPL Copyright, read COPYING file for more information about it.

Binary version :  
android-cap32-v1.1.0-apk.zip

Source code :  
android-cap32-v1.1.0-src.zip

Enjoy,

Zx.

### **Android Ri-Li : Ri-Li game v2.0.1 for JXD**

Hi All,

Ri-li is an arcade game, let you drive a wooden train in many levels where you should collect all rail cars scattered around the track. See <http://ri-li.sourceforge.net/> for more details.

It has been written by Dominique Roux-Serret and muscis are from Maf464.

I've modified the Pandora version v2.0.1 and port it to android using the amazing framework of Pelya, a big 'merci' for his awesome work !

See his site for more details.

Sources are included, and this package is under the GNU public license, read doc files for more information about it.

Here is a full working binary version :

`android-rili-v2.0.1-apk.zip`

Here is the source code :

`android-rili-v2.0.1-src.zip`

Enjoy,

Zx.
